Robin Mesch of Robin Mesch Associates works with traders worldwide, instructing them in the art of reading and comprehending the language of the markets through her market commentary and her customized online educational programs. Her unique approach combines Market Profile and Drummond Geometry as the cornerstone of her trading methodology. She is recognized as a leading authority on the fixed-income markets. She is regularly featured on CNBC and has been profiled in such books as *Bulls, Bears, and Millionaires*, *The Outer Game of Trading*, *The Day Trader's Advantage*, *The Tao of Trading*, and *Women of the Pits*. Ms. Mesch is one of a few recognized experts on Market Profile and Drummond Geometry and has had extensive personal study with the founders of each method. To find out more about Robin Mesch, her market commentary, and her instructional services, visit her Web site at robinmesch.com.
