Strategies In Action

Discussing the practical application of successful trading strategies.

"*The Outer Game of Trading* is an indispensable primer that, once read and digested, can put one solidly in the position to make the informed, split-second decisions on which day-to-day success in the trading of futures and options must in the end be based."

From the forward by Jack Sander, Chairman  
Chicago Mercantile Exchange

"Without question, the human element is a major component in trading, especially as practiced in the pits of the exchanges around the world. That is why the stories and methods of successful traders make for interesting reading, as you will find as you continue *The Outer Game of Trading*."

From the introduction by Patrick Arbor, Chairman, Chicago Board of Trade

"The Outer Game of Trading is masterful. Koppel and Abell share their own insights as well as compile some of the best trading strategies available in the industry"

Mark Douglas, Author  
*The Disciplined Trader*

"Koppel and Abell take us on a guided tour through the working mind of some of the country's best traders. We moved beyond the clichés of trading success and find ourselves closer to the truth of it than we have ever been before. I will return to this book again and again."

John R. Conheaney, Member  
Comex, Finex, Chicago Board of Trade

"The final word on providing the trader with the necessary tools and structure to implement successful trading strategies."

John Slazas, President  
Highline Trading Corp.

"A bold adventure into trading strategy and a must for all serious traders' libraries. I recommend it highly."

Doug Sooley, President Intraday Dynamics

Probus Publishing, 1995.
